I strongly oppose the acquisition of the Elgin, Joliet and Eastern Railway by Canadian National because of the safety, social, economic and traffic impacts it will cause to the surrounding towns of Barrington.

I drive in, around, and thru town daily and already experience traffic due to the high volume of community neighbors which won't change in order to support the businesses. It is my understanding that this would increase 400% as the proposed railway acquisition would add 20+ trains running thru town daily.

Barrington village already experiences shutdowns daily and it angers many.

Surely more anger will ensue and safety issues will arise for impatient people. This acquisition must be rejected for the safety, business & traffic concerns mentioned above.
